Objective:

A dynamic and enthusiastic individual with a passion for digital marketing and Python programming/instruction. Proven ability to lead teams, manage projects, and drive positive impact in both community and technical initiatives. Skilled in online marketing tools, market analysis, budgeting planning, and project management, complemented by a strong foundation in Python programming and instruction. Committed to driving results through creativity, teamwork, and clear communication.

Skills

- **Digital Marketing:** SEO, Social Media Marketing, Content Creation, Online Advertising Strategies, Market Analysis, Online Marketing Tools, Budgeting Planning, Social Media Management
- **Programming:** Python, Object-Oriented Programming (OOP), Data Structures, Algorithms, Web Scraping, NumPy, Pandas, Flask, Tkinter, Pygame, Google Colab, PyCharm, os module
- **Project Management:** Team Leadership, Coordination, Operations Management, Fundraising
- **Instruction/Mentoring:** Python Programming, Digital Literacy, Curriculum Development, One-on-One Support
- **Community Engagement:** Volunteer Coordination, Mentorship, Emotional Support, Event Organization
- **Database Management:** Data Scraping, Custom Database Development

Experience

Digital Marketer (Abbotabad)

- Managed 4 social media pages, developing and implementing content strategies to enhance online presence and engagement.
- Contributed ideas for digital marketing campaigns to raise brand awareness.
- Organized and scheduled all social media posts.
- **Hackathon Participant & Team Leader**, YRHacks 2025, March 2025
 - Led a team of 4 members in designing a program to help high school students in York Region make informed decisions about careers, schools, and courses.
 - Managed the database by scraping data from 34 school databases and building a custom database using Python.
 - Developed a tool to identify required graduation courses and suggest career paths.
 - Placed 12th out of a competitive group, demonstrating strong teamwork, problem-solving, and technical skills.

- Collaborated with team members on user interface design and data accuracy.
- **President – Programming Club**, Middlefield Collegiate Institute, Markham, ON, Feb 2024 – Jan 2025
 - Founded and led the Programming Club to promote coding skills and build a tech-focused community.
 - Taught Python programming to over 45 students, covering loops, functions, Object-Oriented Programming (OOP), and file handling.
 - Guided students in creating 15+ mini-projects, including calculators and banking systems.
 - Used PyCharm to assist students with debugging, writing clean code, and developing efficient algorithms.
 - Organized interactive coding challenges and group projects to encourage collaboration and problem-solving.
 - Provided one-on-one mentoring to help students overcome coding challenges and improve their technical skills.
 - Promoted real-world coding applications in automation, AI, and game development.
- **Volunteer Team Lead – Soup Kitchen Program**, Islamic Society of Markham (ISM), October 2023 – March 2024 (Tuesdays)
 - Managed a team of 4 volunteers in preparing and selling over 750 desi food packages weekly.
 - Raised \$3,600 in profit to support local charitable and community outreach efforts.
 - Coordinated food preparation, handled sales, and ensured smooth operations each week.
 - Contributed to clean-up and packing alongside another volunteer team.
- **Founder & Head – IT Society**, Beaconhouse School System, Abbottabad (Pakistan), 2022 – 2023
 - Founded and led the school's first IT Society to inspire digital learning and creative coding among youth.
 - Taught and mentored over 35 students in Python programming, object-oriented programming (OOP), and problem-solving techniques.
 - Conducted hands-on sessions using PyCharm, focusing on classes, objects, inheritance, and modular design.
 - Organized interactive coding workshops covering loops, functions, data structures, and project-based learning.
 - Helped students build real-world skills like clean code writing, debugging, and using professional development tools.
 - Led tech support and digital presentations for school events, encouraging student-led tech initiatives.
- **Assistant Teacher**, Beaconhouse School System, Abbottabad, 2022 – 2023
 - Assisted ICT teachers with delivering lessons focused on Python and Scratch, with an emphasis on OOP concepts in Python.

- Developed engaging coding challenges, worksheets, and interactive games to reinforce classroom learning.
- Provided 1-on-1 support to students during lab time, helping them understand key concepts like encapsulation and method overloading.
- **Youth Volunteer**, SOS Children's Village – Dodiha, Abbottabad, Summer 2023
 - Led a team of 10 student volunteers in a successful fundraising campaign, raising \$1,200 in one week.
 - Assisted with daily activities, tutoring, and recreational programs, providing mentorship and emotional support to children in need.
 - Fostered a safe, caring environment through one-on-one interactions, playing games, and offering guidance.

Programming & Technical Activities (Personal & Volunteer Projects)

- Created real-world Python applications including a face recognition attendance system, a realistic Chatbot, and games using pygame, all structured with OOP principles.
- Utilized PyCharm and Google Colab for development, focusing on clean architecture and reusable code.
- Built small tools with tkinter and automated tasks using the os module.

Education

- **High School Diploma (Expected)**, Middlefield Collegiate Institute (MCI), Expected June 2025, Focus on Computer Science and related subjects.
- **O Levels**, Beaconhouse School System, 2021 – 2023, Focused on Mathematics, English, and Computer Science.

Certifications

- **Advanced Python Programming**, eHunar Pakistan, July 2023, Covered data structures, algorithms, web scraping, and libraries such as NumPy, Pandas, and Flask.
- **Digital Marketing**, Abbottabad Freelancing Hub, August 2023, focused on SEO, social media marketing, content creation, and online advertising strategies.
